

600V Instrument Current Transformers

TheTIANJIN GREWIN GWTTA79 series of 600V instruction three phase current transformers are designed for in the room. Two different window openings along with numerous secondary ratios are available to meet most applications. This short form catalog shows an overview of our production.Contact factory for different sizes or style.

FEATURES

- Low cost
- TWound cold rolling oriented silicon steel core, without air gap, uniform wound secondary winding, small flux leakage
- Two outline size
- 5.0,1.0,0.2&0.1Aac secondary output available

SPECIFICATIONS

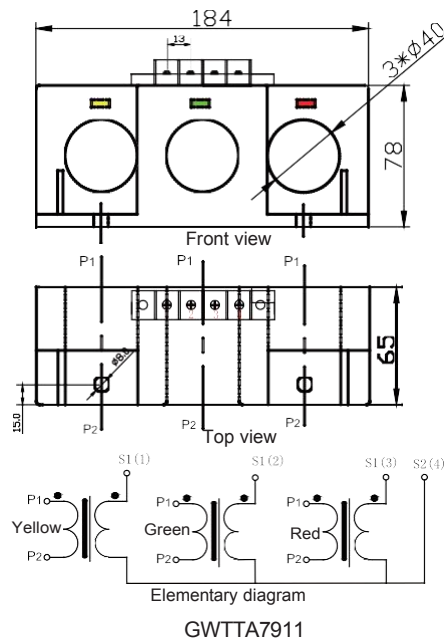

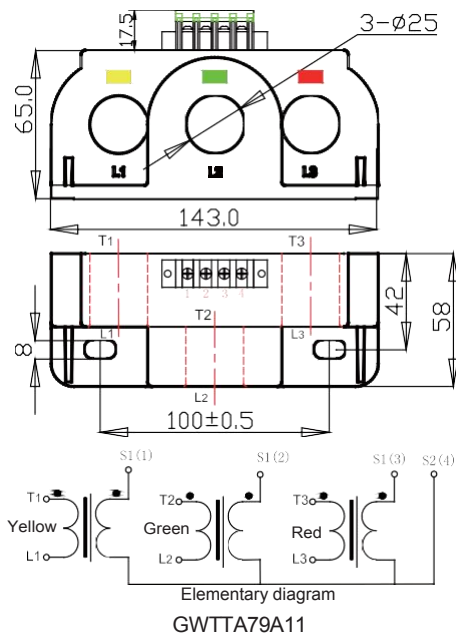

- Shell material:ABS
- Operating Temperature: -25 to +55° C,-40 to +85° C optional
- Operating Voltage:600Vac
- Frequency: 50-400 Hz
- RoHS compliant
- CE-approved
- Accuracy class: compliant IEC60044-1

APPLICATIONS

- Current,Power, Energy monitoring devices
- Relay protection device
