Power Parameter Monitoring and Control Device

EPM300A-3 series multi-functional monitoring device

Product General

EPM300A series multi-functional power monitoring device is one intelligent panel meter whichsets telemetering, telesignalisation,

telecontrol into one body, and can be used widely for substation automation, distribution automation, intelligent building, and electric energy measurement, management and check of the enterprise. EPM300A series multi-functional power monitoring device can measure and display all the common power parameters (such as voltage, current, active/reactive/apparent power, frequency, four quadrant electric energy and so on), can set PT/CT multiplying factor, and has various functions such as RS485 communication networking, switching input/output, analog input/output, electricity degrees pulse output and so on, It is high cost performance, can directly replace various meters, relays, transmitters and other components. This meter can communicate digitally with upper computer to form intelligent distribution system together.

EPM300A-3 □ S series intelligent multipurpose power parameter monitoring and control device applies a slim type enclosure of 120* 120*82mm, panel mounting type, and can be fixed on the panel of switch cabinet. The cutout dimension is showed as below figure. Considering the length of lead wire, there is a space of 150*150*130mm in the back of panel to install and wiring conveniently.

EPM300A-3 S(LED Display) Outline Dimension Slot Dimension

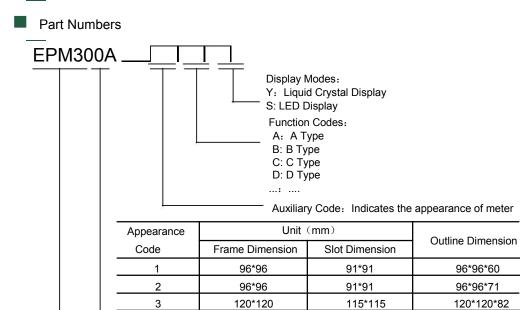

Functional Configration

| Functional Classification | Item | EPM300A | | | |
|------------------------------|--|---------|------|------|------|
| | | -3AS | -3BS | -3CS | -3DS |
| Display Mode | LCD Display | | | | |
| | LED Display | • | • | • | • |
| Measuring Function | Three phase total energy measurement(U/I/P/Q/S/F/PF) | • | • | • | • |
| IO Function | Switching Input(DI) | 2 | 2 | 4 | 4 |
| | Relay Output(DO) | | | 2 | 2 |
| | 4-20mA Analog Input(AI) | | | | 1 |
| | 4-20mA Analog Output(AO) | | | | 1 |
| | Pulse Output | | | | 1 |
| Communication | RS485 | • | • | • | 2 |
| Data Record | Most Value Statistics | | • | • | • |
| | SOE Event Sequential Record | | • | • | • |
| | Built-in Clock | | • | • | • |
| Data Analysis | Three Phase Unbalance Degree | • | • | • | • |
| | Demand Analysis | | • | • | • |
| Auxiliary Function | Constant Value Out-of-limit System | | • | • | • |
| Electric Energy Quality | Total harmonic distortion (Voltage/Current) | | | • | • |
| | Total harmonic distortion (Odd/Even) | | | • | • |
| | Sub-harmonic ratio | | | • | • |
